

London,

Dear Sir/Madam,

Healing Venezuela is a UK registered charity based in London. We send medical supplies to Venezuela, a once thriving country now on the brink of a humanitarian crisis. We are a non-political, non-religious organisation that relies only on private donors.

We are requesting support from surgeries, hospital, hospices and care homes to donate medical items which can still be used, but that you don't need anymore. Healing Venezuela will collect them.

If you are interested in supporting us, please see in Annex 1 items that we accept and that don't. On behalf of Healing Venezuela, thank you so much for your support,

Kind Regards,

Annex 1
